STORY

OUR LOGO VARIATIONS

Our logo exists in 4 different variations to ensure the best and most effective use in any given circumstance.

PRIMARY LOGO

This is the full logo including the badge and the full school name.

This version of the logo is the most commonly used for official purposes. especially on official documentation, advertising and on some branding materials.

ALL NATIONS
PREP SCHOOL

Train up a child in the way to go

SECONDARY LOGO

This is the vertical arrangement of the logo icon and the school name.

This version of the logo is an alternative to the main logo and can be used in spaces with more vertical space than horizontal spaces.

Because of its shape, it fits in smaller spaces as opposed to the full school logo.

LOGO ICON

This is the school badge without any added words (no school name or school motto). It is the official symbol of the school.

This version of the logo is shaped in such a way that it can fit into small spaces or square/circle shaped spaces for example social media profile picture, round stickers, uniform, application icon etc as well as to enhance documentation and merchandise e.g. as a watermark..

THE SCHOOL NAME

The school name alone (without the badge) is another logo variation, that may be useful in spaces or situations that may not allow for the full logos to fit properly.

It is to be used only when it is not convenient to use the full logos.

PERMITTED COLOR VARIATIONS

These are the color variations of the logo that are acceptable. This applies to all variations of the logo.

Please do not use our logo with another color variation apart from the ones specified here.

BEST & COMMON USE

These are the color variations that should be used on most occasions while using our brand elements (the logo, brand patterns and icons).

Please note that these examples apply to all variations of the logo as well as brand icons and brand patterns.

Inky blue and white backgrounds are the best backgrounds to use and should be used where applicable.

The Inky Blue and Yellow Banana or White and Yellow Banana variations should be the most commonly used logo variations, and should be the first option, especially in official use.

The second commonly used variation should be the Inky Blue and Blue Sky variation, provided the background is light, matches and contrasts well with the two colors.

ALTERNATIVE USE

These are the color variations that should be considered when the versions of best use to do match or contrast well with the available background. They are also available for use in unofficial situations.

These examples apply to all variations of the logo, as well as brand icons and patterns.

Please note that while the Inky Blue and White background should be considered first, situations may arise where the logo is placed on a different colored background, and so the color version used may be different.

The versions of Yellow Banana with Fruity Green or Cloudy Blue, should be considered as the first alternatives.

The fully Inky Blue or fully Yellow Banana can be considered as well, on backgrounds where two colors cannot contrast well or match with the available background.

These should be considered as a last option and should be used when the black or white options are the best fit for the available background or artwork provided..

BACKGROUND CONTROL

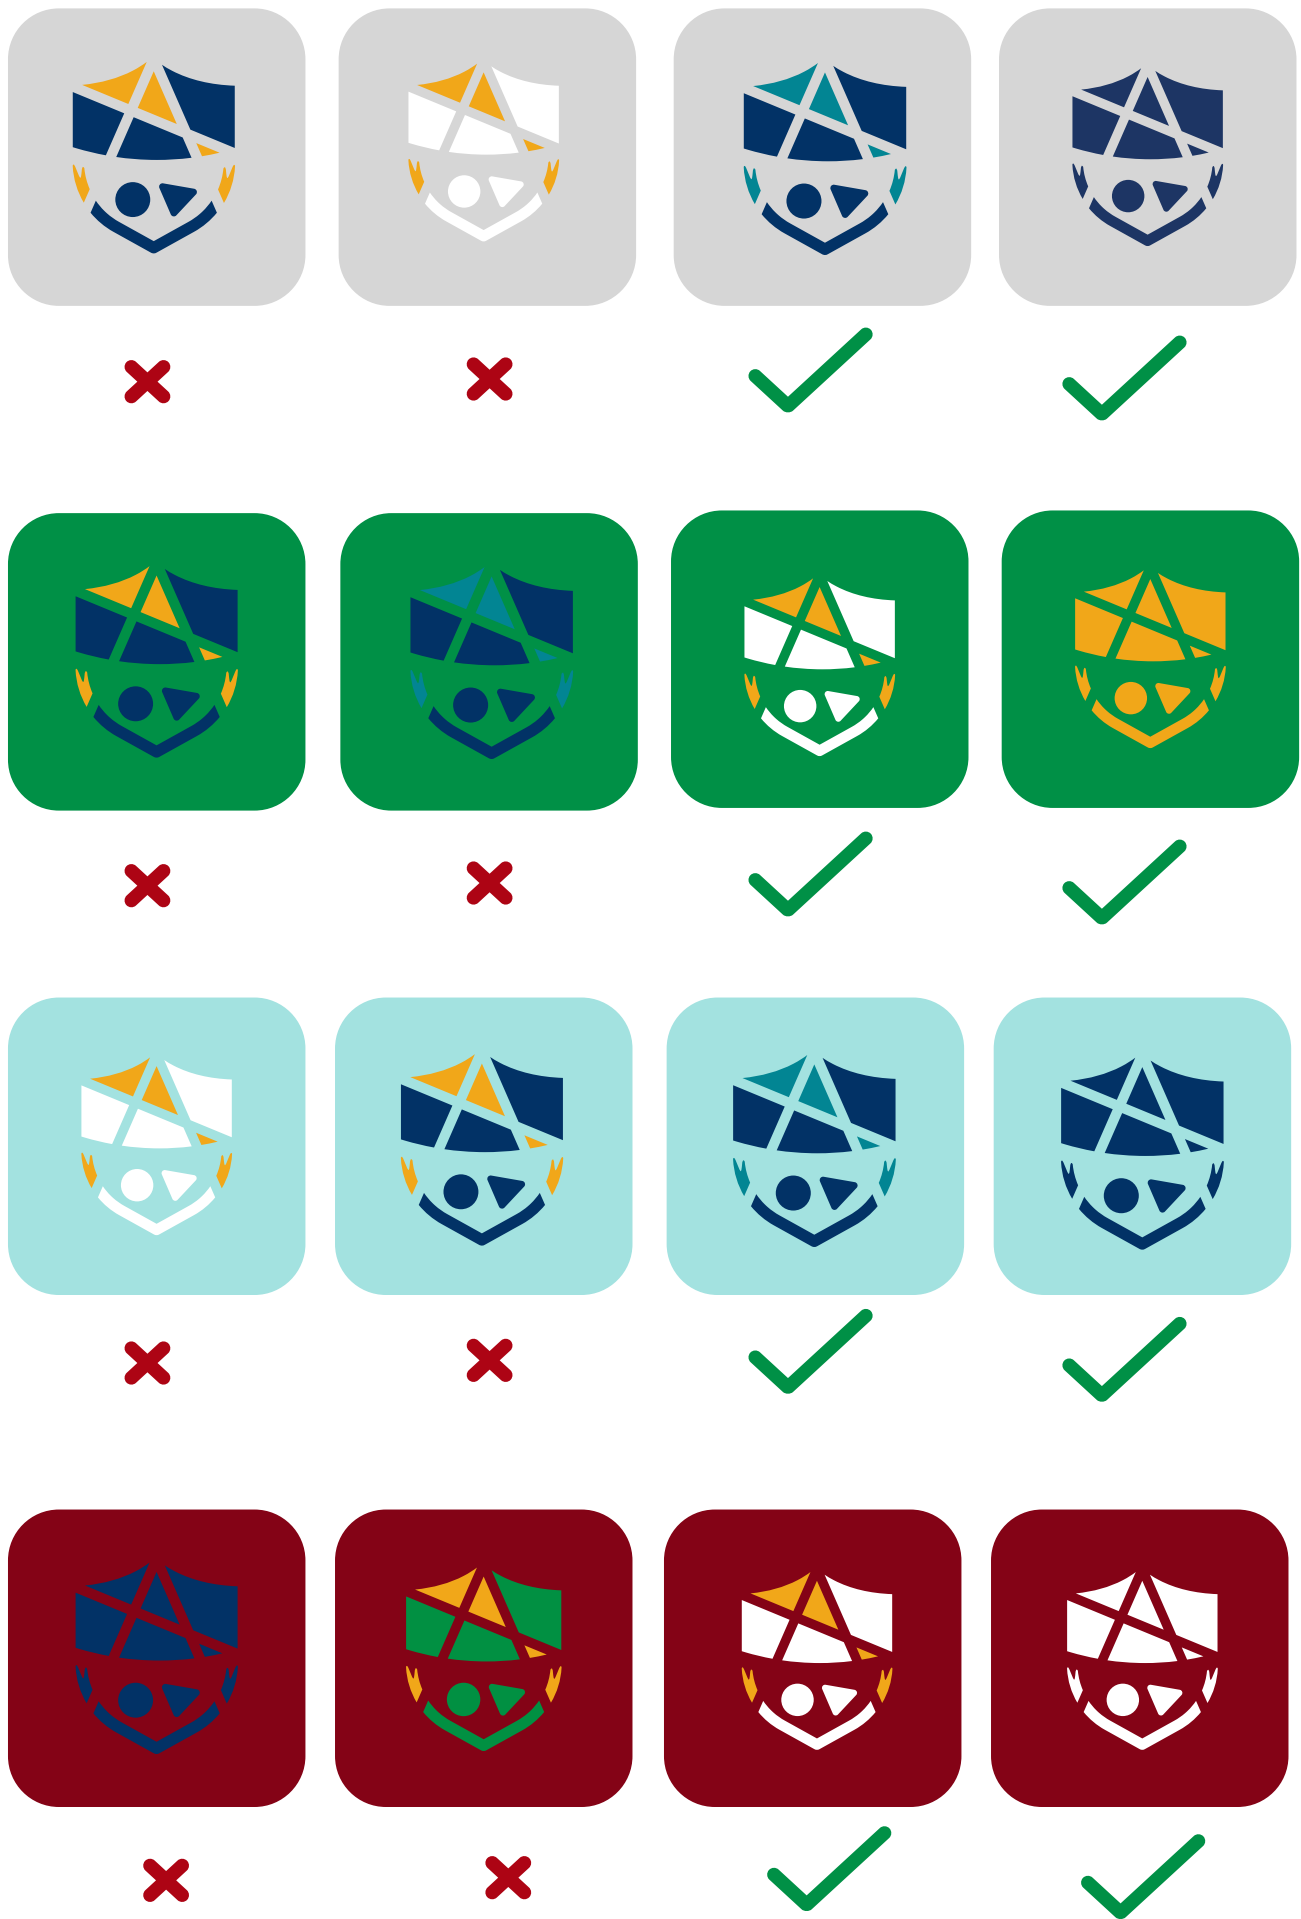

Please ensure to prioritize using any of the brand colors as a background for artwork where applicable.

For variety, use lighter or darker tones of the brand colors as backgrounds as well.

Ensure proper contrast and matching of the brand assets with the provided background. Choose a version that contrasts well with the background. Consider the examples below:

CAUTIONS

Please take note NOT to use our logo in these ways.

- 1. DO NOT introduce new colors to the logo except those provided.
- 2. DO NOT skew the logo out of proportion in any direction.
- 3. DO NOT apply an outline to the logo.
- 4. DO NOT color the various parts of the logo differently from the original logo.
- 5. DO NOT resize different parts of the logo seperately from the rest. Always resize the logo as one element.
- 6. DO NOT rearrange different parts of the logo.
- 7. DO NOT change the font of the logo.

PROTECTION AREA

The “**UNITY ICON**” gives us the area around our logo that should remain free while using the logo in artwork that includes other elements.

Do not place any other object or element within this area of the logo, so that it can stand out.

This applies for all versions of our logo.
