

# Your Final Package

HOW TO USE YOUR FILES

# How to use your logo/pattern/icon files

## Color Modes

### RGB

#### DIGITAL USE

These files are for digital use. They are useful for anything that is going to be viewed on a screen.

Give them to your service provider who needs to use your logo where it will be used digitally. It includes file types: PDFs, PNGs, SVGs & Illustrator files.

### CMYK

#### PRINT USE

These files are for print use. They are useful for anything that is going to be printed or used outside the screen.

Give them to your service provider who needs to use your logo where it will be printed or used outside the screen eg 3D signposts. It includes PDF & Illustrator file types.

# How to use your logo/pattern/icon files

## File Types

### PDF

This is a document of your logo in highest quality usually used for artwork that will be printed.

### PNG

This is the transparent format of your logo and will be useful for most digital artwork.

### SVG

This is a web format of your logo that is useful for website and application use.

### ILLUSTRATOR

This is the editable version of your logo useful for future use in case you decide to edit your current logo.

Some service providers may need to create the artwork using the illustrator format.

# The Brand Style Guidelines Document

Please ensure to read the brand style guidelines document to understand how to use your brand elements.

Also ensure to share the style guidelines document with anyone who will be using your brand for any purposes, to ensure that there is consistency in use of your elements.

Sticking to the style guidelines will ensure that your brand appears professional and creates trust with your target audience.

# Brand Fonts

A file containing the brand font has been provided. Install these font files and they will be available on your various softwares for example Microsoft Word..

## REPORT CARDS

### KINDERGARTEN & PRIMARY REPORTS

These are word document templates to input details for report cards. The documents are saved in a Word Document Template format (.dotx). After making each change, save the new file under “Save As”. The original document remains unchanged as the template.

## DOCUMENTS

### PRINT USE

These are files for circular/document use and letterhead use. Please ensure to follow the format guidelines within the document.

As you start to use your files, please ensure to use the sample images to visualise how the final outcome of the documents should look.

# Thank You!
